

WELCOME WE ARE LOOKING FORWARD TO WELCOMING YOU TO THE KPSRL ANNUAL CONFERENCE 2021: ASYMMETRIC POWER!

USER GUIDE IN-PERSON ATTENDANCE

The Knowledge Platform Annual Conference #KPAC21 is the Platform's signature event that each year brings together our vibrant community for thought-provoking discussions. As in previous years, we use this moment to invite the diverse actors in our community to assemble with a singular aim: to present their latest projects and freshest ideas, and engage their peers to learn and improve security and justice policy and programs.

This year's theme is Asymmetric Power. The KPSRL community has become increasingly vocal about seizing this moment of upheaval to redress asymmetric power structures. While the sector has long been preoccupied with inequality and injustice in societies, pressure has been mounting to address unequal power distribution within the peace and development sector itself.
